Another new addition are authentic new contextual on-pitch gameplay tools, including teammates’ relationship levels, positioning of the opposition goalkeeper,

and a new 360-degree touchline view that lets players control multiple viewpoints on the field for the first time. New interactive stadium features also include a brand new pre-match animation, a larger terrace and boards, and a new official match announcer. New live gameplay features including a new “Ready to Start” feature for new players and a new “Player Pinning” system that enables the player to freeze and execute body or face movements when experiencing a knockdown or other gameplay-based injury.

New collision data generation has also been improved for more detailed goal kicks, and tackles that result in a shot on goal are now harder to execute. The “Hard Tackle” feature has also been introduced, which enables players to perform a difficult tackle where the player is dragged away from the ball and then an “Awkward Stop.” A new “Counter-attacking” option will also be available for
