The specific aim of this study is to develop a more complete understanding of the social ecology of sleep in young children. Three age-order triads of children will be observed from 6:30 to 8:30 on weekday evenings. Parents of the children will be interviewed on the evening of the observation regarding their child's sleep and bedtime routines and the sleep routines and bedtimes of each parent. Parents will also be interviewed at the end of the day to determine if there has been any change in these routines. Today, Niantic Labs (formerly Google's) new experimental game called Harry Potter: Wizards Unite launched for Android in the US. Here's what you need to know about Harry Potter: Wizards Unite from the game's website. What is Harry Potter: Wizards Unite? Invented by Niantic Labs, the game's creative director John Hanke previously worked at Google before creating some of the most popular games of all time. He recently joined Nintendo as a Director of Quality Assurance. The game from Niantic Labs, an incubation within Google, was built specifically for Google's experimental platform called ARCore. It was announced at Google's I/O conference last week. The game was officially launched today. Currently, the game is only available in the US for iPhone. But, while no official release date has been announced, it's clearly in the works. Here's a little video that shows what you can expect from Harry Potter: Wizards Unite. Can you invite friends to your house? Yes, you can invite your friends to play Harry Potter: Wizards Unite. And you can help them get into your house in order to search and fight the Malfoys. The game includes other modes of gameplay as well. For example, you can get into local play to search for a lost item in the real-world. It's all part of the ARCore features that Niantic Labs built. What's the mission? The mission
